What topic would you like to see covered in the next Guild meeting?

- Making binaries available. How to install, use and update tools.
- Loved the zoslib demo. Showing the types of patches that were needed to get tools working. Showing off upstream success as well.
- OpenSSH

Guild Meeting 3 (3/4)

003

Do you have any feedback on the ZOSLIB library?

- would like to separate the builtins into separate lib.
- This is excellent and I will try it today.
- zoslib sounds like exactly what we need to make all the filetag stuff transparent to applications. Looking forward to using it.

What would motivate you to contribute to z/OS Open Tools? (E.g. Github Badges, Bounty Program, etc)

- I am motivated by access to the environment and learning more about zOS. You have created an excellent supportive community that definitely motivates me to do better.
- anything, but yes github badges and/or bounties would be helpful.
- An extra couple of hours in the day would help! 😊
- Badges and bounties.
- badges
- I like badges... still lurking, trying to understand how I could contribute.
